evolving food

At Kerry Foodservice, we pride ourselves on our sweet tooth.

After all, we've been producing some of the country's most popular dessert sauces for several years now.

We know that the mark of a good dessert is the effect it has on your customers. So ask yourself this: when a tempting dessert is delivered to one table, do the diners on the next table sit up and demand one themselves?

Does a liberal sprinkling of fudge pieces over an ice cream sundae keep the kids quiet for the rest of the day?

Is the correct combination of a classic dessert with a rich, gooey sauce so delicious that every plate comes back empty?

The answer to all these questions should be 'yes'. It certainly is for Kerry Foodservice customers.

dessert sauces

Our dessert sauces have been gracing menus across the country for longer than we care to remember. We own the UK Foodservice's number one brand in dessert sauces (Margetts), while also producing an increasing number of own brand and bespoke products.

We understand exactly what consumers want when it comes to a classic dessert sauce whether you're catering for children or adults. Which is why we're capable of producing a staggering array of flavours from Strawberry and Raspberry, through to Lemon and Coconut, taking in Chocolate, Butterscotch and Maple Flavour Syrup along the way.

Our dessert sauces can turn an ordinary ice cream into a tasty treat. They can turn a standard dessert into a special dish. And with a little imagination, they can add value to any menu.

toppings

Sprinkle some extra flavour and texture on to your desserts, with our selection of toppings. Sprinkles are the perfect addition to any dessert menu – our range of 5 core toppings complement a huge selection of dishes from ice cream and cheesecakes through to brownies and cakes.

A variety of extra product lines are also available, all of which taste great when mixed and matched with our dessert sauces.

UHT custards, creams and sauces

As one of the leading suppliers of own-label and bespoke products to the market, we have a dedicated development unit with years of expertise in UHT technology.

As a result, we're able to deliver a superior range of ready-to-use, top quality custards, creams and sauces that are simple and convenient, while boasting ambient storage prior to opening, long shelf lives and fantastic flavour.

Key products include our regular custard, reduced fat and luxury custard, and a deluxe brandy sauce.

Meanwhile our range of UHT Creams includes store-cupboard essentials such as an Aerosol Cream delivering 96% real dairy cream, a single cream ideal for pouring and cooking, a stable whipping cream and a versatile non-dairy cream.

UHT ice cream

As a leading supplier of UHT soft-serve ice cream to the foodservice industry, we've developed our ranges to deliver fantastic yield, flavour and quality.

From tailor-made products through to all-time favourites, our UHT ice cream offers a fantastic opportunity for customer satisfaction and profit.

sweet accompaniments

As the last dish diners order when eating out, desserts must be memorable.

And to deliver memorable dishes, caterers use memorable ingredients. They introduce products that add extra colour or texture to a dish. They serve accompaniments rich in flavour. They match classic puddings with classic sauces.

And to do all that, they turn to us.
